Full-stack web developer with **2 internships** and hands-on experience building production-ready applications using React, Node.js, and Appwrite. Graduating Aug 2026 from VIT Bhopal (CGPA 8.21). Seeking a frontend or full-stack internship/role at a growth-focused startup.

TECHNICAL SKILLS

Languages: C++, Javascript, SQL

Frontend: Html, React.js, Tailwind CSS

Backend: Node.js, Express.js

Databases: MongoDB, MySQL

Tools: Git, GitHub, Appwrite

WORK EXPERIENCE

OS Code | *Hybrid*

Full-Stack Developer Intern

Oct 2024 – Apr 2025

- Developed and maintained **5–7 front-end features** for Evota, an e-commerce platform for smartboards, including product catalogue and auth flows. Integrated **2 REST APIs** (product listings and authentication) with Node.js, reducing redundant API calls by ~30% and improving frontend load performance. Collaborated in an agile team of **3–4 developers**, contributing to sprint planning and delivering scalable, maintainable code on schedule.

Made For Solution | *Hybrid*

Front-End Web Developer Intern

Aug 2024 – Oct 2024

- Built **6–10 reusable UI components** with ReactJS and Tailwind CSS, reducing code duplication and speeding up future feature development. Assisted in backend API integration and front-end optimization, improving page responsiveness across mobile and desktop breakpoints. Collaborated with the design team to translate Figma mockups into pixel-accurate, accessible UI — improving overall UX consistency.

PROJECTS

Blogged - Full-Stack Blogging Platform

- Built a full-stack blogging platform with **React, Redux, Tailwind CSS, and Appwrite**, featuring secure JWT-based authentication, role-based access control (admin/reader), and full CRUD operations across **4+ content management modules** (create, edit, publish, delete). Implemented image upload pipeline via Appwrite Storage, reducing manual content handling by ~40%. Deployed on Vercel with **sub-2s load times** and a fully responsive UI across mobile, tablet, and desktop.

FoodZero - A Restaurant website

- Built a responsive restaurant web application using **React.js and Tailwind CSS** featuring dynamic menu displays, customer reviews section, and a **live reservation system integrated with Google Sheets API** — enabling real-time booking data collection without a backend. Achieved a clean, mobile-first UI across **3+ device breakpoints** with optimized component structure for fast load performance.

EDUCATION

Vellore Institute of Technology.

B.tech in Computer Science (Core)

CGPA : **8.21**

Bhopal, Madhya Pradesh

2022-2026

ACTIVITIES

Metaversity Club - Technical Team Lead

- Led a technical team of 10 students, conducting **5+ workshops** on web development tools and delivering club projects on schedule.
